

Dear Madam —

July 19/20

I am desirous of securing a peculiarly competent librarian to take charge, or to learn to take charge, of the library belonging to this Herbarium, and at Mr. Winsor's suggestion I take the liberty of writing to you as perhaps able to recommend some one for the place.

The library is ~~entirely~~ ^{strictly} botanical & now numbers about over 5000 volumes and 3000 pamphlets, ~~the present~~ ^{catalogues} ~~catalogues~~ ^{by authors.} (rather roughly) ~~done~~. I need some ^{one} to keep it in order, to take care of accessions, to keep the run of bookseller's catalogue & check opportunities for the purchase of desiderata may not be lost, to gradually become familiar with the contents of the library and to carry out a sys-

technical indexing of it by subjects. It
needs a person of considerable ability,
and good judgment, ^{and scientific tact, and} with a fair knowledge
of Latin, German and French. The position
would, for the right person, be a per-
manent one and the compensation
probably \$7,500 per year.

~~If you know of any one who~~
~~is interested in this work~~
~~and would be glad to do this work~~
I should be under great obliga-
tion to you if you will kindly in-
form me of ^{some} ~~any~~ one whom you
believe competent for this work.

W.V.T.
